

2008 Clinical Laboratory Collaborative							
WEDNESDAY, May 14							
TIME	Room 1	Room 2	Room 3	Room 4	EXHIBIT HALL		
7:00 - 8:00 AM	REGISTRATION AND CONTINENTAL BREAKFAST						
8:00 - 9:15 AM	KEYNOTE ADDRESS: Laugh for the Health of It - Dr. Dale Anderson						
9:30 - 10:30 AM	1 A Functional Approach to Jake or Changing the Course of Autism Using an Upstream Model of Healing Dr. Bobbi Kostinec	2 Waaaaay Better Methods to Reduce Conflict in Medical Organizations Bruce Miles	3 Estimated GFR Dr. Eileen O'Shaughnessy	4 Investigation and Analysis of PFCs in Minnesota Drinking Water Jim Kelly / Marty Bevan			
	5 Transfusion Reaction Case Studies Stephanie Codina	6 Climate Change: Evidence, Consequence, and Implications Dr. Mark Seeley	7 Laboratory Licensure 2008: A Legislative Journey Rick Panning / Kathy Hansen	8 Acupuncture in the Inpatient Setting Ian Johnson			
10:45 - 11:45 AM	LUNCH AND EXHIBITS...CLMA/ASCP lunch						
1:30 - 2:30 PM	9 Hemostasis and Thrombosis (part 1) Dr. Mark Arnesen	10 The Art of Quality Control Mike Toyoshima	11 Hot Topics in Laboratory Management Matt Zimmer, Facilitator	12 Updates on Emerging Infectious Disease: Perspective from the Clinical Micro Laboratory Dr. Glen Hansen			
	13 Hemostasis and Thrombosis (part 2) Dr. Arnesen	14 Pharmacogenetic Testing: Personalizing Medicine Dr. Dennis O'Kane		15 Outcome-based Education - Be Specific Peggy Stupca			
2:45 - 3:45 PM							
4:00 - 5:30 PM	EXHIBITS AND SOCIAL HOUR						
5:30 PM	Buses start loading for Social to Twins game						
THURSDAY, May 15							
TIME	Room 1	Room 2	Room 3	Room 4	EXHIBIT HALL		
7:00 - 8:00 AM	REGISTRATION AND CONTINENTAL BREAKFAST (Educators Breakfast)						
8:00 - 9:15 AM	KEYNOTE: Appropriate Antibiotic Utilization in the Prevention of Multi-Drug Resistant Bacteria - Dr. James Keegan						
9:30 - 10:30 AM	16 Hospital Billing, Coding, and Payment for Blood: 2008 Update John Carlsen	17 Hot Topics in Education Dr. Carol McCoy, Facilitator	18 Serum Protein Electrophoresis and Immunotyping on CAPILLARYS: Results and Interpretation Dr. Aigars Brants	19 Severe Influenza Pandemic: Ethical Challenges and Guidance Dr. Dorothy Vawter	Spring Training ST-1: Computer Software Products		
	20 Platelets...a Sticky Situation Sandy Gardner		21 HPV: Where Diagnostic Testing Meets Risk Management Dr. Charles Cartwright	22 Tough Calls for the Medical Examiner-Interesting Forensic Cases Dr. Lindsey Thomas			
10:45 - 11:45 AM							
11:45 - 1:15 PM	LUNCH AND EXHIBITS AND DESSERT.....ASCLS Lunch						
1:30 - 2:30 PM	23 Vitamin D and the Clinical Laboratory Brian Lauber	24 Developing Problem-solving Skills in a Cross-trained World Robbi Montgomery	25 Molecular Diagnosis of Infectious Diseases: Past, Present and Future Dr. Charles Cartwright	26 Life in a Parallel Universe, Working in a Food Safety Laboratory Craig Braymen	Spring Training ST-2: Heme/Coag		
	27 Transplantation for Lymphoma Dr. Marcie Tomblin	28 FISH Case Studies: One FISH, Two FISH, now when to do FISH Dr. James Fink	29 Fold and Hold-Muscle Pain Relief Dr. Dale Anderson	30 Molecular Diagnostics and Laboratory Medicine: Population Screening for Cystic Fibrosis as a Case Study Dr. Amy Brower			
2:45 - 3:45 PM							
4:00 - 6:00 PM	EXHIBITS AND SOCIAL HOUR						
FRIDAY, May 16							
TIME	Room 1	Room 2	Room 3	Room 4	EXHIBIT HALL		
7:00 - 8:00 AM	REGISTRATION AND CONTINENTAL BREAKFAST (AMT and AACC breakfast)						
8:00 - 9:00 AM	31 TRALI 2008: An Update Dr. David Mair	32 Test Utilization Management Strategies Priscilla Cherry	33 Troponin 2008 - Lots That is New Dr. Allan Jaffe	34a Clinical Bacteriology Update - Part 1 Dr. Dennis Wegner (8:00 - 11:00)	Spring Training ST-4: Chemistry ST-5: Point-of-Care		
	35 WHO Knows About Acute Leukemia Janice Hodnefield	36 Introductory Concepts for Pandemic Influenza Planning Dr. Robert Skeate	37 Allergy Testing Dr. Henry Homburger				
9:15 - 10:15 AM							
10:15 - 11:30	EXHIBIT TIME						
11:30 - 12:45 PM	LUNCH AND FINAL KEYNOTE ADDRESS: Leadership: The Power of "Being Present" - Rick Panning						
1:00 - 2:00 PM	38 The Changing Epidemiology of Tick-borne diseases in MN: Laboratory Roles Melissa Kemperman	39 The VA OIF/OEF Program: Our Role in Caring for Combat Veterans Serving Since 11/11/98 Diane Peterson	40 Peripheral Blood and Patient Disease: What We Can Tell by Looking Through the Microscope Dr. Susan Wheaton	34b Clinical Bacteriology Update - Part 2 Dr. Wegner (1:00 - 4:00)			
	41 Coagulation Case Study Potpourri Laynalee Cardel	42 Awakening the Healer Within: Self-care Techniques for our Fast-Paced Lives Pat Cullitin	43 Forensic Drug Testing: "The Incredible Journey" Renee Burke				
2:15 - 3:15 PM							
3:15 - 4:00 PM
